SENATOR CALVIN S. BRICE'S WEALTH.

Senator Calvin S. Brice is estimated to be worth over \$6,000,000. Ten years ago as a railroad lawyer at Lima, Ohio, all he had was his home and that incumbered. All of this immense fortune has been accumulated in this short period in successful railroad deals. His success has been phenomenal and while it shows the possibilities of this country nevertheless it is largely but the caprice of fortune. It is the grand prize in the lottery of chance which every now and then one man of a million draws. For the other 999,999 common sense teaches us it is folly to hope for such luck. The chances are all against us. There is a certain way for every man, woman or child to accumulate a competence. It is the rule that we see followed by those all around us, who are steadily getting ahead financially. The certain rule of wealth is very simple, it is to save.

It is not how much or how little we earn that makes any one rich, it is what is put by. Every one has this chance. The boy or girl who forms habits of industry and learns to save is sure to succeed. The man or woman who determines to put by a part of their earnings and who does it, is certain to become independent. The great trouble is we say, next week I will begin; next month I will have some surplus; next year I will have better pay and can put by something of consequence. Next week and next month and next year always bring needs as pressing as those of to-day. The sure rule is, begin now. Put by a part of your earnings and whether the start is in dimes or dollars, nevertheless make a start. You can put it by by putting it where it will bring you in something, or invest it in necessities where and when they are sold cheap. Thousands and millions of dollars are saved every year by persons taking advantage of buying where they can get good necessities of life cheap. We know of no better place where this can be done than at the Drug, Book and Wall Paper House of Saur & Balsley. Just at this season this house is offering some paying and special bargains in wall paper and decorations, consisting of some of the prettiest designs ever shown in the Northwest. Also, as this is the sickly season, this popular house is offering to humanity a variety of pure medicines that cannot help to keep one in good health and cure you if you are ailing. Much money can be saved by investing a small amount in good pure remedies and preventatives of disease. Their paints and oils are standard goods and are sold guaranteed to be the best, and it is money saved to get the best, especially when the article is sold at the small margin which reigns at the house of Saur & Balsley, Napoleon, O.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Sprig of Figs, under all conditions make it their favorite remedy. It is pleasant to the eye and to the taste, gentle, yet effective in acting on the kidneys, liver and bowels.

A Surprise.

Some surprises sadden the heart and leave unmistakable evidence of their aimed influence while others are very pleasant, in perfect harmony with aims and purposes in life, so that we naturally feel a new inspiration of soul and body. The latter is one of which we wish to speak. A neighborly party of surprises wended their way to the home of Mrs. Widow Crum, last Monday, Aug. 11th, residing near what is known as "The Round Bottom."

The surprises came with laden baskets of this earth's very best with the intention of having a birthday pie-nic, and we believe the bodily wants of all were fully gratified from the abundance of tasteful supplies and verily we believe the heart was glad while the mouth was filled with good things.

The friends wishing to set up a memorial as a token of respect and love presented the aged lady a handsome spring rocking chair, while there were several individual presents given by the children who also believe in being sociable and free hearted.

Such gatherings are pleasant and are the means of binding friends and neighbors into closer union with each other and people should be more interested in one another's welfare, bodily as well as spiritually. The poet has well said:

Who is thy neighbor? He whom thou
Hast power to aid or bless,
Whose sobbing heart or burning brow,
Thy soothing hand may press.

Thy neighbor? Pass no mourner by,
Perhaps thou canst redeem,
A breaking heart from misery,
Go, share thy lot with him.

In due time the friends took their departure wishing Mrs. Crum many pleasant birthday days to come.

Summer Fashions at Saratoga and Newport.

INDEPENDENT WAISTS; FANS; JEWELRY; FALL MATERIALS.

For afternoon drives at Saratoga and Newport, bonnets of curled ostrich feathers in pink, white, gray and black are very popular, and are also useful on the water and for the evening stroll. Cloth caps in great variety of color, come in for their share of approval, being generally beaded or embroidered on the yoke and around the edges, with flaring collar lined with ostrich feathers. White cloth capes, with black braided Vandyke yoke are considered very stylish, while troubadour cape with a long end thrown over the left shoulder is the latest addition to the cape species. White and pearl gray parasols are most used for carriage wear, and vary from the richest possible material down to simple white muslin over colored or white silk lining, handles being of ivory or light wood, occasionally ornamented with Dresden china. Pink is a very popular color for carriage toiles, and nothing is more charming than a combination of pink China silk with trimmings of white mousseline de soie lined down with black lace and black ostrich feather boa. One of the most striking toiles seen at Newport this season, and worn by a slender, pale young matron, is of crimson grenadine with wide and narrow satin stripes, the skirt formed of bias and straight panels in succession, long loops and bows of crimson ribbon giving finish, while the corsage and sleeves seemed a mass of puffs and fluffings intermixed with ribbon. In accordance with the soft, clinging materials of the present day, crape sashes five-eighths of a yard wide with long, fringed ends are most popular; although Surah is much worn; plaited sashes with a velvet stripe being also fashionable.

INDEPENDENT WAISTS

Retain all their wonted popularity, as they rest upon the broad basis of utility as well as beauty, and from the simple Surah waist for morning wear, to the elegant lace corsage for evening dress, all grades and styles are noticeable. A very dressy design is round, quite full on the shoulders, the fullness kept in place by rows of narrow braid in contrasting color, about a quarter of an inch apart, (the upper end looped) forming the outline of a corselet, and the stylish effect of gold braid on black lace, or on blue or green silk, maroon or heliotrope, may be readily imagined. The newest fashions are of tullel gauze, the sticks of ivory or delicately carved light wood extending to the upper edge of the fan, while tiny crescents or dew drops sparkle on the gauze surface. Some times a hand painted scene lends variety, the sticks showing on either side. The present rage for orchids has extended into jewelry, resulting in the production of gold enamelled orchids of all sizes and colorings, embellished with seed pearls and diamonds. Some of these exquisite creations are six inches across the flower, while others are very minute. The stems and vines supporting the orchids are in many cases, double rows of small pearls and diamonds.

"BEYOND THE SHADOW OF A DOUBT."

Plaids will be worn again, as in Lord & Taylor's sample book of Fall importations they occupy a prominent position; the greatest novelty in that line being plaids with an astrachan stripe. Tartan plaids will again be popular and bourette effects in great variety of design and coloring will adorn the standard camel's hair. Crepe de chene will be largely patronized, and also plain and printed Bengelines. Prominent among the colors in these materials, may be observed Heliotrope, Dahlia and Solferino.

VERONA CLARKE.

It is to be regretted that many mothers do not commence to use Mellin's Food until their infants are ill. The food, it must be borne in mind, is not a medicine, and is not intended for sick babies; it is the best artificial food for both healthy and feeble infants.

ALMOST FORGOTTEN.

State Auditor Poe Calls Attention to an Important Matter—A State Board of Equalization to be Elected This Fall.

AUDITOR OF STATE'S OFFICE,
COLUMBUS, O., Aug. 14, 1890.

As provided in section 2818 of the Revised Statutes of Ohio, at the State election to be held November, 1890, the qualified electors of each senatorial district in the State will elect persons to serve as members of the State Board of Equalization. This board will consist of as many members as compose the State Senate chosen at the last previous assembly (1889), and representing the same district. This will give the several senatorial districts the following representation in said board:

First district, three; Second, one; Third, one; Fourth, one; Fifth, one; Sixth, one; Seventh, one; Eighth, two; Ninth, one; Tenth, two; Eleventh, one; Twelfth, one; Thirteenth, one; Fourteenth, one; Fifteenth and Sixteenth, one; Seventeenth and Eighteenth, one; Nineteenth and Twentieth, one; Twenty-first, one; Twenty-second, one; Twenty-third, one; Twenty-fourth, one; Twenty-fifth, one; Twenty-sixth, one; Twenty-seventh, one; Twenty-eighth, one; Twenty-ninth, one; Thirtieth, one; Thirty-first, one; Thirty-second, one; Thirty-third, two.

The election of the members of this board will be governed in all respects by the law regulating the election of State Senators.

Each member of said board shall receive for each day necessarily employed in the performance of his duties the sum of \$5, also 12 cents per mile each way, from and to his place of residence, by the most direct route, to and from the Capitol.

Inasmuch as the members are to be chosen by senatorial districts, I presume it to be the duty of the senatorial committees to call the convention in their respective districts, to place in nomination suitable persons to be voted for at the November election.

It is perhaps needless for me to say that to the board should be sent the very best equipped persons to be found in the State. Let both parties select men because of their fitness and qualifications, so that no matter what the political complexion of the board may be, we will have a competent body for the equalization of real property throughout the State.

I hope I will not be thought presumption in thus calling the attention of the public to this all important matter. To me it is important. I am led to say this much for the reason that I have failed to notice in the press of the State any general movement toward the election of members of this particular board and my only desire in mentioning this matter is to furnish such information as will prevent any misunderstanding as to the time and manner of the election, and construction of said board.

Very respectfully,
E. W. POE,
Auditor of State.

Marvelous Endurance.

The vast amount of labor performed by the heart in keeping all portions of the body supplied with blood is not generally known. It beats 100,000 times, and forces blood at the rate of 168 miles a day, which is 3,000,000 miles in a year, or 1,500,000 miles a life time. No wonder there are so many heart failures. The first symptoms are shortness of breath when exercising, pain in the side or stomach, fluttering, choking in throat, oppression, then follow weak, hungry or smothering spells, swollen ankles, etc. Dr. Franklin Miles' New Heart Cure is the only remedy.

"WE ARE STILL SPLIT UP!"

The Indications Are That the Federal Election Bill Will Go Over.

WASHINGTON, Aug. 14.—Thirty-nine republican Senators held a caucus to-night. The subject discussed was the advisability of laying aside the federal election and arranging with the democratic Senators to have a vote on the tariff bill in the near future. Both of the Pennsylvania Senators, Plumb and others, advocated laying the election bill over. They said that it would be after policy to keep Congress here much after the first of September, because members of both Houses are needed in the states to take part in the canvass for members of the House of Representatives.

Finally, without coming to any agreement as to future action and without fixing a day for reassembling, the caucus adjourned. The debate developed the fact that about fifteen of the Senators present were in favor of letting the elections bill go over.

A special injunction of secrecy was placed on those who were present and one republican Senator who is noted for extreme frankness would only shake his head and say in response to inquiries: "We are all split up."

During the course of his remarks Senator Quay said that he objected to having southern republicans in the House set upon him by Speaker Reed to yelp at his heels like a pack of dogs in favor of Senator Hoar's measure.

English Spain Liniment removes all hard, soft or calloused lumps and bluishness from horses. Blood spavin, curbs, splints, swellings, ring-bones, stifles, sprains, throats, coughs, etc. Save \$20 by use of one bottle. Warranted the most wonderful blemish cure ever known. Sold by D. J. Humphrey, Napoleon, Ohio.

Kansas Kicking.

The Atchison Champion came out flat-footed for free trade the other day. The Topeka Capital, another Republican paper, and the official State paper, is not far behind. The issue of August 6th contained this editorial paragraph:

"Kansas congratulates Senators Ingalls and Plumb on their independence and regard for the interests of the people in the tariff matter. They are trying to carry out the solemn promises of the Republican party to reduce the tariff."

The leading editorial article in Thursday's issue was entitled "A Bird's Eye View of the McKinley Bill," and gave a summary of its chief features, showing that "with the exception of the sugar schedule there is no aggregate ad valorem increase of duty on every schedule, and a total average increase of duty on dutiable articles of 10.64 per cent. in the Senate (from 44.83, the present rate, to 55.47), and of 11.40 in the House (to 56.23)." The article concludes with these plain words:

"Readers will make their own judgment of the McKinley Bill. We fail to see in it any such reduction as the Capital has long urged, save on sugar. There is no attempt to revise with the purpose of benefiting the consumers. There are beneficial advances of duty on farm products, but on the majority of farm products the advance will have no effect whatever. The bill on the whole is not in the interest of rational protection, and merits the disapprobation of Senator Plumb and Mr. Blaine."

The Law that Governed the Land Appraisers.

The Land Appraisers, as is usual every ten years, are being bitterly denounced for placing, as many claim, exorbitant valuations on real estate. We have been requested to publish the following section of the law which governed the appraisers and which they were sworn to obey in making valuations:

Sec. 2732. Each separate parcel of real estate shall be valued at its true value in money, excluding the value of the crops growing thereon; but the price for which such real property would sell at auction, or at forced sale, shall not be taken as the criterion of the true value; and where the fee of the soil of any tract, parcel, or lot of land is in any person or persons, natural or artificial, and the right to any minerals therein in another or others, the same shall be valued and listed agreeably to such ownership in separate entries, specifying the interest listed, and shall be taxed to the parties owning the different interests respectively.

It will be observed that the law says that all real property shall be valued at its true value in money, and that the price for which such real property would sell at auction, or forced sale, shall not be taken as a criterion of the true value. The only way left for the appraisers to fix the value was to ascertain at what price land sold for in the locality and then fix their values by comparison. If they have appraised lands higher than the true value, then the appraisers are to blame, otherwise the fault is with the law instead of the appraisers, and the law should receive the condemnation. If the appraisers have not appraised lands equally, all things being considered, then there is an opportunity for appeal from their decisions and the decennial Board of Equalization is provided for this purpose.
